

Let us think of those who suffer from the coronavirus, with their loved ones, with those who are front line carers, with those who continue to provide us with essential services and with scientists and researchers.

The Grand Chaplain, R.W.Bro. Rev. Canon T. Henry Trimble has provided us with this prayer to help us in these challenging times.

We thank you Great Architect above,  
for offering Peace, Harmony and Brotherly Love.  
We know how Covid-19 has overwhelmed us all,  
hear the sincere prayer through which we call.

Be with Bodies worldwide which are broken today,  
for their healing, peace of mind and strength we pray.  
Bless all men and women whose vocation is healing,  
give your wisdom to those in the work of researching.

Bring to all concerned the long tether of hope,  
to seamstresses who work until the end of their rope.  
Great God give us all a sense you are here,  
proclaiming your Grace to all on earth's sphere.
